### **Cayman Islands Aircraft Registry**

George Town, Grand Cayman, (January 2009) - The Civil Aviation Authority of the Cayman Islands (CAACI) is the regulatory body controlling the aviation industry throughout the Cayman Islands. The CAACI operates in accordance with a statutory instrument that is predicated on UK legislation. These legislative requirements are found in the “Air Navigation (Overseas Territories) Order 2007,” AN(OT)O (and subsequent amendments) which contains regulations governing the operational and airworthiness requirements of Cayman registered aircraft. Also relative is the guidance contained in the Overseas Territories Aviation Requirements (OTARS) as published for all UK Overseas territories.

Criteria for registering an aircraft include the following:

- Submission of application for registration by respective individuals or company
- Persons wishing to register an aircraft must prove eligibility & meet due diligence requirements
- Compliance with stipulated CAACI Airworthiness Requirements
- Compliance with CAACI Flight Operational Requirements
- Appropriate licensing of Aircrew
- Maintenance Organisation Approval
- Radio License Application
- Physical Survey of Aircraft
- Payment of associated fees

Once an aircraft is accepted to be placed on the Cayman Islands aircraft register, a registration mark prefixed with VP-C plus two other letters will be assigned. Applicants are cautioned not to initiate the de-registration process from the existing State of Register until such time as the application has been formally accepted by the CAACI. The entire registration process normally takes about six weeks.

There is a schedule of fees, which may be obtained from the CAACI or can be downloaded from the CAACI website at [www.caacayman.com](http://www.caacayman.com) and is dependent upon the type of aircraft and its attributes.

More...

A complete package of information and forms pertaining to the registration of an aircraft on the Cayman register can be obtained from:

Air Safety Regulation Division  
Civil Aviation Authority of the Cayman Islands  
P. O. Box 10277 /Unit 2 Cayman Grand Harbour  
Grand Cayman KY1-1003  
Cayman Islands.
