SOLUTIONS

"To enhance aviation safety performance through effective regulatory oversight."

MISSION

THE CAYMAN ISLANDS AND ITS AIRCRAFT REGISTRY: The Islands' main industries are financial services and tourism. The Government's primary source of income is derived from fees charged for corporate services, the licensing and regulation of various entities domiciled in the Cayman Islands as well as import duties levied on goods.

The Cayman Islands is an English speaking Overseas Territory (OT) of the United Kingdom and is therefore committed to the obligations of the Chicago Convention to which the United Kingdom is a signatory. The UK Secretary of State delegates authority for regulation of aviation to the OTs Governors and, in the Cayman Islands, the designation is then made for the Civil Aviation Authority to carry out all aviation regulatory functions within the jurisdiction including oversight of the Aircraft Register.

Air Safety Support International (ASSI) a subsidiary of the UK Civil Aviation Authority with instructions from the UK Department for Transport has been created to oversee the territories' regulatory compliance.

Following stringent assessments by ASSI, the CAACI has retained full authority for the safety and economic regulation of the Cayman Islands' aviation industry. Developed in conjunction with the UK territories, ASSI has published the Overseas Territories Aviation Requirements (OTARs) as the specific regulatory code relative to the unique circumstances of the UK territories. These enable compliance with the legislation – the Air Navigation (Overseas Territories) Order [AN(OT)O] and ultimately with the ICAO Standards and Recommended Practices. Territories) Order [AN(OT)O] and ultimately with the ICAO standards and recommended practises.

LEGAL SYSTEM

The Cayman Islands is a British Overseas Territory and has been a parliamentary democracy since 1831. Whilst exercising a high degree of autonomy, the Cayman Islands long association with the United Kingdom has resulted in an environment of political, social, economic and judicial stability. Our legal system is based on the English Common Law legal system and the Cayman Islands final court of appeal is the Privy Council of the United Kingdom. This provides an additional level of comfort to international lenders, owners and operators of aircraft registered in the Cayman Islands.

TAX SYSTEM

The Cayman Islands is a leading offshore financial jurisdiction renowned for its tax neutral environment, its fiduciary integrity and its highly developed legal system based on English legal principles. Applicants to the Registry are encouraged to work with one of the local financial and legal partner firms who are versed in aircraft registration and can provide expert legal advice appropriate to clients individual circumstances.

CORPORATE OWNERSHIP

The majority of the aircraft on the C I A R are owned by corporations who prefer the ease and security of travel in the relative anonymity afforded to Cayman Islands registered aircraft. The clientele also enjoy personalised service from each division within the CAACI and can be assured of efficient, client focused service for processing of applications, guidance on regulatory matters and responses to queries regarding the aircraft's operation.

THE CAYMAN ISLANDS

The Islands lie 480 miles due south of Miami, 90 miles south of Cuba and 190 miles northwest of Jamaica. With an average year-round temperature of 82°F or 28°C, the Cayman Islands enjoy some of the most desirable weather in the world.

VISION

"A safe and credible aviation industry for the Cayman Islands."

CAYMAN ISLANDS AIRCRAFT REGISTRY

AIRCRAFT REGISTRY

The Cayman Islands Aircraft Registry (CIAR) operates in accordance with International Civil Aviation Organisation (ICAO) compliant legislation specifically drafted for the United Kingdom Overseas Territories. Mortgaging of Aircraft Regulations 2015 and Cayman Islands Cape Town Convention Law 2015 supports the financing of aircraft on the CIAR and the security of the asset.

OPERATING PERMITS

The Civil Aviation Authority of the Cayman Islands (CAACI) is responsible for the economic regulation of the aviation industry throughout the Cayman Islands including the grant of scheduled and non-scheduled operating permits.

AIR NAVIGATION REGULATIONS

The CAACI ensures that airport operations, air navigation services, facilities and personnel meet or exceed the prescribed international standards.

BENEFITS OF REGISTERING

The Cayman Islands Aircraft Register continues to set itself apart by concentrating on quality service and attention to owners, operators, lessors and lenders. It works closely with the stakeholders to identify and address their needs employing a responsive and highly qualified staff supported by a bespoke interactive software, VP-C online. The CAACI remains committed to ensuring that the Cayman aircraft registration experience is in keeping with the standards that the industry has come to expect from Cayman.

Together with the quality, customised approach offering various safety oversight options for private and commercial aircraft, some of the benefits of registering your aircraft in the Cayman Islands include:

- Safe and politically stable flag of registration
- Tax neutral jurisdiction with well-regulated financial and legal industry
- Signatory of the Cape Town Convention via the UK
- Maritime and Aviation City to facilitate Air Operator's Certificates for offshore commercial operations
- Online aircraft register and aircraft data management portal accessible 24/7
- Cayman Islands is an FAA Category 1 rated jurisdiction and has been granted a TSA airspace waiver to all aircraft operating on the CIAR
- Anonymity associated with the Registry
- Innovative solution for lessors/financiers requiring a register to facilitate temporary registration of aircraft which are transitioning between leases or have been repossessed

FREQUENTLY ASKED QUESTIONS

1. *Where are CI registered aircraft based?*
Based globally in countries throughout Europe, Middle East, South America, Asia, North America and South Africa.
2. *Is there protection of third party interests?*
A party taking a mortgage over an aircraft registered, or to be registered, on the CIAR is able to register that mortgage with the CAACI on its mortgage register. The Air Navigation Order mandates that the registered mortgagee must provide its consent to deregister the relevant aircraft from the aircraft register before such

deregistration can take place. Cape Town Convention filings such as the IDERA can also be made and are strictly adhered to in the Cayman Islands.

3. *How is an aircraft accepted onto the registry?*
Aircraft are accepted onto the Register subject to:
 - Meeting the financial Anti Money-Laundering and Due Diligence provisions of the jurisdiction with regards to the beneficial owners
 - The provisions of the AN(OT)O and the (OTARs)
 - Meeting and maintaining airworthiness, flight operations and flight crew licensing requirements

VP-C ONLINE

In an effort to maintain exceptional service to clients, the CAACI has developed an electronic data management system that provides a secure way to manage aircraft documents online. Applications for registration and all aircraft flight operation and continuing airworthiness approvals are submitted online and the applicant can check the status of the approval when they are given access to the system. This leading-edge, secured, aircraft data management portal is continually being enhanced to align with new technology advancements and to keep pace with advancing needs of clients. www.vp-conline.com

BIC

VP-C Online has been developed in conjunction with Brac Informatics Centre (BIC), a premier international provider of technology and cloud-based solutions. BIC provides secure, self-service portals to assist public and private sector organizations to meet their clients' demands for 24.7.365 access to information. www.bic.ky

CAYMAN ISLANDS AIRPORTS AUTHORITY

The Cayman Islands Airports Authority (CIAA) was established by the Cayman Islands Government in July 2004 and is a statutory authority under the Ministry of District Administration, Tourism & Transport. The CIAA owns and operates two international aerodromes, Owen Roberts International Airport (ORIA) on Grand Cayman and Charles Kirkconnell International Airport (CKIA) on Cayman Brac.

The CIAA is responsible for constructing, managing and operating the Airports by providing and maintaining runways, taxiways and terminals to international standards and to provide support and accommodation to those agencies involved in border control.

ORIA commenced commercial operations in 1952 and is the major gateway linking the Cayman Islands to destinations world-wide.
